Introduction of School Fees for CCF PALS Preschool from 1 January 2027

With effect from 1 January 2027, Children's Cancer Foundation (CCF) Place for Academic Learning and Support (PALS) Preschool will introduce a monthly school fee of \$570.

The school fee applies only to children enrolled in PALS Preschool. There is no change to the current fee arrangements for children receiving support under the PALS Primary and Secondary School programmes.

The introduction of a formal fee structure is part of CCF's ongoing efforts to strengthen the long-term sustainability of PALS Preschool. Under this arrangement, eligible families may benefit from applicable government preschool subsidies, with CCF absorbing any remaining school fee balance. This allows PALS Preschool to operate within the broader preschool funding framework while continuing to ensure that the programme remains accessible to children and families impacted by childhood cancer.

While a monthly school fee will be introduced for PALS Preschool, families will not be required to make any out-of-pocket payment towards the school fees. PALS Preschool will facilitate applications for the Early Childhood Development Agency (ECDA) Infant and Childcare Subsidy Scheme for eligible children. Families will be required to provide the necessary information and supporting documents to facilitate the subsidy application process.

After the applicable subsidies have been applied, CCF will fully absorb any remaining balance of the school fees. This means that families will not be required to pay any school fees, regardless of the amount of subsidy received.

CCF appreciates the continued trust and support of our families as we implement this arrangement. We remain committed to ensuring that PALS continues to provide a safe, supportive and conducive learning environment for children impacted by childhood cancer, and to supporting their learning and development throughout their cancer journey.
